ASSESSMENT BRIEF

NFQ Level   : Level 8

Course Name : WebInnovate 2.1

Learner Details				
Module Unit	Front End Web Development			
Title/s	Responsive Design & Grid Systems	Lecturer		Alan Dargan
Date Issued		Submission Date		as per submission point
Assessment Type (Group or Individual)	Individual	Submission Type (file upload, workshop, live presentation etc)		File Upload

Brief:

This Assessment is designed to test participants knowledge of HTML , CSS and Responsive Design.

Participants are asked to recreate the Guardian Technology web page in three different resolution sizes.

Participants are also asked to recreate a mobile resolution (640 x 960) sized "blog article" page.

Use the slides that accompany this assessment to sketch out the row and column sizes you need for each resolution.

Use the content provided to recreate the front end of these two pages. You are not asked to recreate all the functionality.

More information on responsive images can be found here Bootstrap Images

The only functionality you are asked to recreate is the responsive grid of the "main technology page" and a link to the 'blog article' page

Given the material available to participants on this course it is advised to use the Bootstrap framework.

Test the page on the following browser versions

Chrome Version => 42
IE => 11
Firefox => 38

Treat this project like a web application you are building and use a sensible directory structure.

Use the colour picker extension for Google Chrome to find the hex values of navigation bars or any other css you may require.

Just to note, incorrect color values will not incur any mark deductions.

Learning Outcome:

Instructions:

Upload a zipped file including

HTML , CSS , Image and any Javascript files in a suitable directory structure

The zipped file should be named

FEWD-<YOUR-NAME-HERE>-ASSESSMENT-2

N.B. – this zipped submission should consist of two HTML pages and all associated content

ASSESSMENT BRIEF

NFQ Level   : Level 8

Course Name : WebInnovate 2.1

Additional Notes:

Caution:
• Deferral of assessment can only be made under exceptional circumstances and by applying directly to the Quality Assurance Manager (qa@webinnovate.ie) and completing a Personal Circumstances form (obtained from Moodle) with details in the participant handbook section 4.2. These must be **received and agreed in advance of the submission date** or work will be deemed as not received. • Re-check and re-mark procedures are also outlined in the participant handbook, sections 4.3 and 4.4 (with forms obtained from Moodle). • DSA policy on plagiarism and collusion are detailed in the participant handbook, sections 4.6 and 4.7. • There is a two week period after results are submitted, for any more general enquiries on assessment results, after which quality assurance queries **will not be considered.** • Submissions must **strictly adhere to the instructions** on the Assessment Brief, including the **correct format for digital submissions.** • Participants must sign off when handing in work. • Participants are responsible for testing that uploaded content files can be downloaded properly before submitting.
